STAY IN THE FIGHT

Our reputation for customer support encompasses each of our repair sites around the U.S. We have a history of supporting many DoD and Allied aerospace and defense products as well as many airborne and land systems including:

- US Army TACOM – AH-64 Integrated Helmet and Display Sight System (IHADSS)
- US Army CECOM – AN/AVS-7 Heads Up Display
- BAE/US Army – Armored Multi-Purpose Vehicle (AMPV) Production
- UK MOD – AH-64 Helmet Mounted Systems
- BAE/US Army – Bradley Fighting Vehicle Commander and Gunner Hand Stations
- Curtiss-Wright/US Army – LUH-72 Lakota Multi-Function Displays
- US Army – M326 120-mm Mortar Stowage System
- Boeing/US Army – AH-64 Mission Processor (MP) and Multicore Mission Processor (MMP)
- DynCorp International/US Army – US Army Transport CLS (C-26E / UC-35A/B)

SUSTAINMENT & SUPPORT SOLUTIONS

We provide combat-proven design, development, production, repair, and life-cycle supportability solutions of mission critical systems for U.S. and Allied military tactical platforms. We enhance customer capabilities by managing the repair and overhaul, system supportability, and life cycle support of all our military electronics systems.

PERFORMANCE BASED LOGISTICS SOLUTIONS

- Complete sustainment engineering
- Performance metrics and analysis
- Operational and maintenance training
- Supply chain management
- Technical support
- Configuration management
